

Consejería de Educación

The Spanish Embassy Education Office together with the Consejería de Cultura y Turismo de Castilla y León in collaboration with the University of Edinburgh are holding the training event Jornadas de Español para Docentes de Secundaria en Escocia. By means of a practical approach, the course aims to deal with new trends in the teaching and learning of Spanish as a Foreign Language. Professionals and linguists working in Scotland and Spain will share interesting reflections and pedagogical proposals.

Although the course is primarily addressed to secondary teachers of Spanish, university teachers and PGDE students are more than welcome to attend our lectures and workshops and taste some wine and tapas from one of the most fascinating regions in Spain: Castilla y León.

Attendance is FREE and registration must be done via Eventbrite:
